

Foundation of the ZVEI Association of Transformers & Power Supplies

The newly founded specialist department for Switching power supplies/SMPS would like to dedicate stronger the specific topics around power supplies in the power range up to 3 kW. Hermann Pütke takes over the chair in the new department. The cooperation with the European association EPSMA is to be accelerated and further companies are to be inspired to cooperate in the ZVEI. Focus will be on the needs and interests of manufacturers and suppliers and they will be represented more strongly.

IKOM Award - inpotron the employer of the future

The IKOM Award is presented in recognition of corporate responsibility in practice. The award is given to companies that distinguish themselves through their commitment to the business location, entrepreneurial continuity, value orientation and sustainability as well as through good entry and development opportunities for career starters, as so called "future employers". In June, Dr. Klaus-Peter Potthast presented us with the award at the category up to 250 employees.
